

Cycle Route © – Trinity Lanes & Zoo

This itinerary has been developed by a local cycle guide to direct visitors slightly off the 96 mile waymarked cycle network to discover even more of our beautiful coast and countryside and in particular this specific part of Jersey – just follow the directions.

Start:

The route begins at the junction of **Trinity Hill** (see Cycle Network Map for routes out of town with directions from Liberation Square) and Vallée des Vaux ('green lane'). See section on routes out of town for directions from Liberation Square.

Proceed up **Vallée des Vaux** past the Harvest Barn, taking the third left into the lane marked Vailde des Vaux (which becomes Rue du Vieux Moulin). Turn left at the very top of the hill (Rue de la Hauteur), left again at the T-junction (Rue de la Garenne), then first right and immediately left into Rue Becq.

At the next crossroads fork left (Rue de Brabant) past the **Brabant Riding Stables** on your right, and the back of **Trinity Manor**. Turn right at the junction of Rue de Brabant and Rue des Monnidres. **Pallot Steam, Motor & General Museum** is on the left at this junction.

Turn right at the end of the lane, then shortly after left and immediately left again into Rue du Feugerel. Cross over the main St John's Road, right at the T-junction (Chemin de Hérupe) and second right down the hill into the 'green lane' (Rue du Pont). Notice the fine 18th century properties in this lane; the last one on the left is a 'cod house' marked by the pineapples on the gate posts.

Cycle straight across the next crossroads, then right at the main road and immediately left into a short leafy lane. At the end turn right (Mont Mado, B52) and follow the main road for a short distance until the second turning on the left, Rue de la Mare des Prés. Be careful at the next junction; carry straight on into Rue des Barraques if you want to take the detour into **Bonne Nuit Bay**, where you will find a café on the pier. The road brings you back up on to our route, but is a very steep climb.

If not, turn sharp right here (still La Rue de La Mare des Prés, becoming Rue des Platons).

There are now no turnings for about 1.5 miles (2.5 km). Just near the BBC radio masts is the highest point of the Island at 149 metres. There are some lovely tracks for walks in this area amongst the valleys and along the coast.
