

# Les Sentier des Moulins

Linear Walk

Travel down Le Sentier des Moulins (The Mill Trail) which was constructed by volunteers of St. Lawrence to commemorate the Millennium. This easy two-mile route begins at Handois Reservoir and makes its way down both sides of Waterworks Valley. Many water mills have been recorded in the island, several of which operated in this valley. Open your eyes to the history around you and discover structures that were once used for milling corn, fulling cloth, crushing sugar, making paper and grinding malt for beer.
